

the book industry's supply chain organisation

SCEA Supply Chain Excellence Award - Online Questionnaire

This online questionnaire will ask questions about your organisation and its activities in the book supply chain. Some questions can be answered with a Yes or No whilst others will require quite detailed information which you may have to request from other experts in your organisation. BIC is primarily interested in the extent to which your organisation has embraced beneficial technology, adopted industry standards and implemented best practice. The questions will also seek to establish recent progress and any evidence of innovation. Please note that your answers will be assessed by an independent panel of industry experts from across the supply chain.

This questionnaire is for all organisations involved in the supply chain for books, including publishers, distributors, wholesalers, printers, booksellers and systems and service providers. The focus of this accreditation is on the supply chain between publishers and booksellers (and library suppliers), via distributors and wholesalers, not on the supply of books direct to customers. Note that if a question does not relate to your business then please state "N/A" (Not Applicable) but also, if necessary, give a reason e.g. "this is outside our business model" etc. Many book industry organisations are involved in activities right across the supply chain and are no longer restricted to the traditional roles of supplier or bookseller, so please answer all questions which you feel are relevant to your business. Please note that questions marked with an asterix (*) are mandatory.

Confidentiality

Please note that the contents of this application form will be reviewed by the BIC Supply Chain Excellence Award accreditation panel, which is a group comprised of representation from various types of organisations throughout the UK's book industry supply chain, including publishers, retailers, distributors, wholesalers, data aggregators, systems vendors and service providers. **Each application is treated in confidence, but BIC reminds all applicant organisations not to disclose any information that should not be shared with the accreditation panel members and isn't already in the public domain.**

Please note that each page of this form will be validated e.g. so that mandatory questions are answered. This means that an error is shown in pink and must be corrected/filled in before proceeding. Validation happens when the "Next" button is pressed. If the Next button doesn't work, it may mean that there is an error still needing correction further up the page.

Section A. About you and your business
